

FREE HVAC BELT DRIVE WORKSHOP

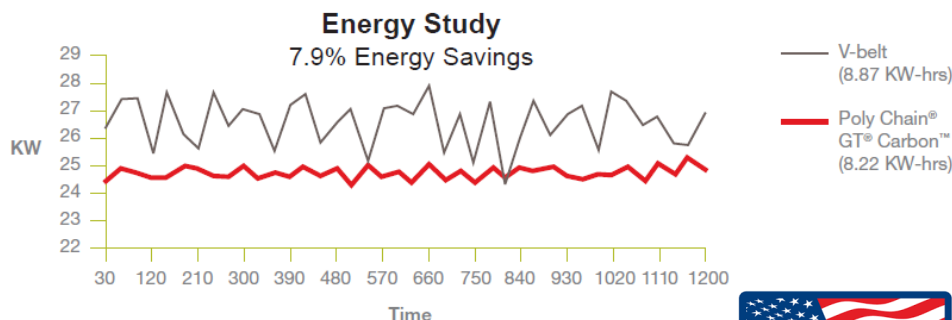

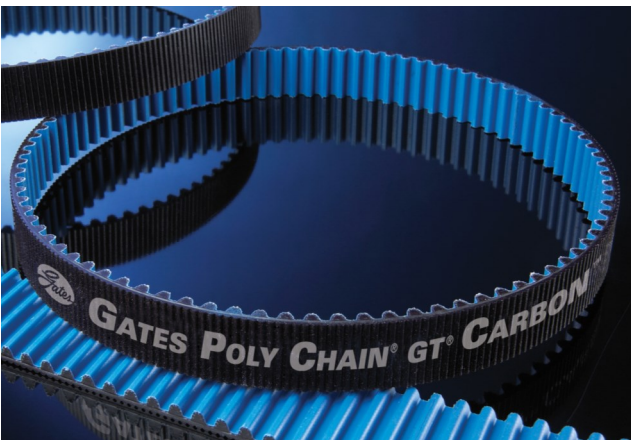

Learn how to save money and reduce maintenance by:

- 1. Maximizing belt drive efficiency**
- 2. Maximizing belt life**
- 3. Applying latest belt technology**

**Annual energy savings of
air moving drives using
Synchronous belts. →**

Gates Poly Chain Belts average 5% in energy savings.
They often run several years maintenance free.

V-BELTS

-Ethylene Rubber
-Molded Notches
-Premium Tensile Cords

Increased performance on small diameter pulleys

Improved flexibility.

Remains stable + resists stretch

Flex-bonded cords.

Smoother running / reduced vibration

Precision machined sidewalls.

Reduces bending stress

Specially engineered molded notch.

12.5x BETTER

In misaligned applications.

4.5x MORE CRACK RESISTANT

MOLDED NOTCH CONSTRUCTION

Up to **3% ENERGY COST SAVINGS**

Call or email us today to schedule your workshop.
